elined to give ear to views expressing disappointment over the rate of business improvement. Intimations were heard of a probable disappointing showing for the forthcoming quarterly report of the United States Steel corporation, and the January orders received were said to be a disappointment.

In this connection, the rate at which money is coming back from the country into the bank reserves is a disquieting evidence of a lack of demand for it in the circulation. Besides the shipments of currency by express from the interior, the operations of the treasury department reflect the heavy gravitation of bank notes back toward their sources of issue. Current redemptions of bank notes by the United States treasury for the first twelve days of January reached the formidable total of \$20,000,000, and for the several days past have run from two to two and one-half million dollars. This rate of reflux approaches, if it does not equal, that which set in early last year, when money markets first began to become normal, currency began to come out and the lessened trade activity began to pile up idle reserves ir, the banks. Much speculative sentiment is tinged with these views, minor factors of an unfavorable.

GRAIN AND PROVISIONS.

Chicago, Jan. 13.—Financial difficulties involving an influential grain concern at Duluth caused some signs of demoraliza-Dulath caused some signs of demoralization in the wheat pit at the opening owing to the selling out of a long line of wheat held by that firm. Local bears took advantage of the situation and pounded the market vigorously the first quarter of an hour, but were unable to force prices below the opening level, which was from 1/4 above to 3/4 c below the previous close. The attemnt was made futile by the support given the market by the principal bfills, who took all offerings.

The market continued somewhat nervous the first half of the day, but the liberal purchases of the big holders gradually started covering by shorts, which eventually resulted in sharp upturns in the price of all deliveries. May option advanced 2c and the more distant deliveries rose 1 to 11/2. The smallness of primary receipts, the total arrivals being the smallest of the crop, aided the bulls in bringing about the rally. A better demand for cash wheat also had a strengthening influence. The market closed strong with prices at the top, final quotations on May being 106 and on July 37/4.

The corn market was firm at first, but later trade dwindled to small proportions. The market closed steady, with prices 3/4 to 1/4 c higher than yesterday's close. May closed at 61/4/661/8 and July at 61/4/661/8.

Fisher Beer as a Table Beverage **Promotes Sociability**

Dr. Wiley, the government food expert, says: "Nutrition is the first object to be conserved in the feeding of domesticated animals, but it is only one of the objects to be kept in view in the feeding of man. Man is a social animal and from the earliest period of his history food has exercised a most important function of his social life."

Serve Fisher beer at meal times. It is the great social beverage and the great table beverage. It makes a meal more enjoyable because it is something you keenly relish.

MEN-A SPECIAL DEPARTMENT FOR-MEN

Drs. Shores maintain a Special Private Department for the benefit of men—who through misfortune. Indiscretions or excesses need the services of ABSO-LUTELY RELIABLE AND EXPERIENCED SPECIALISTS. We treat all forms of Contracted disorders, Specific Blood Poison, Prostate troubles, Varicocele, Weaknesses and Loss of Manhood. The necessity of this Department, where unfortunate sufferers may come with the assurance of honest dealings and expert treatment—is made piain by the presence in the city of various "Fake Medical Companies" and "Quack Institutes," where cheap hired Doctors and ignorant quacks endanger the health and rob the afficted for worthless and often dangerous treatment.

For 17 years Drs. Shores have been known as STRICTLY RELIABLE SPECIALISTS. They do business under their own names, and offer you their Expertices on practically your own terms—either small weekly or monthly payments as the cure progresses or you can arrange to PAY WHEN CURED.
